The Honorable Kevin Elsenheimer  
Michigan House of Representatives  
P.O. Box 30014  
Lansing, MI 48909-7514

Dear Representative Elsenheimer:

The Michigan Association of Chiefs of Police has reviewed and supports HB4544. As written, the bill sufficiently articulates that it would be a criminal act for someone to intercept a police, fire or emergency medical communication and then use that information to commit a crime. Punishment for such interception and use would also be consistent with the underlying crime.

Please feel welcome to contact me if I can provide further information. I may be reached by calling 517 788 4127.

Sincerely Yours,

Ervin L. Portis
